

NOGAS Landscaping

Dear Valued Customers, as we welcome a new spring season we would to thank all of you for sticking with us through a very busy winter. Please remember to let us know if your property is looking to have mulch done so we may get you those prices as soon as possible. For spring walk throughs, we must wait until after plants begin to bloom to be able to determine what needs to be replaced and what we can keep. Also find attached our core lawn aeration quotes. Lawn Aeration allows for water to penetrate deeper into the root system of your grass to help encourage new growth, air exchange, fertilizer exchange, and stronger lawns. Keep an eye out for our crews as we begin to come through your properties for spring leaf clean ups and cutting down of perennial grasses. If you wish to keep your grasses, please mark them with ribbon to notify our crews. As always please feel free to reach out to Dave, Robert, or Kevin with any questions you may have or you may also contact our office. We thank you for your continued loyalty and happy spring to all!

Sincerely,

The Team at Noga's Landscaping
